This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. Desumpta sunt quae nunc edo e codice parisino sangermanensi tricesimo octavo, eodem unde nuper didascalia apostolorum in lucem publicam invita quasi protracta est. de libro sangermanensi ipso nunc agere supervacaneum credo, quum et in praefatione didascaliae praemissa nonnulla iam allata sint liceatque sperare fore, ut in catalogo librorum orientalium parisiensium Reinaudi cura mox edendo fusius de eodem et ornatius exponatur. summa cura adhibita est, ut codex plane unicus quanta maxima fieri posset diligentia exprimeretur atque etiam puncta eisdem literarum locis apponerentur, quibus a librario syriaco appicta sunt. hoc tamen monitos lectores velim, ܘܢ̇ et ܘ̇ܢ esse unam eandemque formam, quum litera ܢ subter ceteris vocabulorum literis protendatur (quod imitari ars typographica non poterat) et parte suprema ipsi versui inhaereat ita, ut punctum illud dexterum accentus .· commodissime queat literae Vav apponi. uncis quadratis [ ] inclusi, quae de meo addidi: eisdem duplicatis [[ ]], quae manu recentiore inter versus adiecta habebantur: lunulis ( ), quae librarius ipse inter versus scripserat. formas syriacas ad exempla a me suppeditata et identidem correcta vir clarissimus A. Auerus, qua est

propensa ad bonas literas augendas voluntate, per operas suas cudi curavit effecitque ut, quum Vindobonae A. Widmanstadius primum librum syriacum typis caesareis anno MDLXI edidisset, post elapsa tria fere saecula primus ego formis estrangelicis in Germania usus e typographeo caesareo vindobonensi hasce reliquias possem emittere. editionem earundem reliquiarum graecam, si deus vitam suppeditaverit, intra bimestre spatium hanc syriacam subsequuturam esse spondeo, quum haud exiguus foliorum numerus typis iam exscriptus sit: ibi dicta invenientur, quae de canonibus et epistolis canonicis dicenda sunt. in hoc nostro volumine corrigenda et addenda haec reperi:

ܒ 1 cod. p. 183. vox ܕܝܛܘܣ rubro colore scripta paene evanuit, sed in indice manu recentiore codici praemisso legitur ܕܝܛܘܣܐ satis distincte. cf. etiam Curetonis corp. ignat. p. 348.
